Commissioner for Patents

Applicants' 10/12/06 response electing Group I (claims 1-8 and 13-15) without traverse is acknowledged, but this election is NOT fully responsive since no single specie has been selected within Group I.

Applicants are reminded that a reply to the previous 9/12/06 species restriction requirement must also include an identification of the single specie within Group I (selected from the species numbered (1)-(4) previously, and within the elected numbered specie, a single lettered specie selected from the species lettered (a)-(d) previously) that is elected consonant with the previous species restriction requirement, along with a listing of all claims readable thereon, including any claims subsequently added.
